Changes at The Natural Path

With spring comes many welcome changes - warmer, longer days, new flowers, gardens, outdoor activities, maybe even a little cleaning or decluttering. The season is the perfect time to try out new things.

In the spirit of spring changes, we wanted to let everyone know about some changes we are implementing at The Natural Path.

First, we will be changing up our hours a bit to try to serve more people. Our new hours will be 6 am - 10 am and 5 pm - 8 pm Monday through Thursday. We will be closed on Fridays.

Second, we will be splitting up appointments by last name. If your last name starts with A-M, you can schedule the first two weeks of

Ordering Supplements

[Order Standard Process or MediHerb Supplements](#)

Free shipping when ordering over \$100 in product.

If you are a client at The Natural Path, check out the bottom of your receipt for instructions to order using Patient Direct at a savings. (In-office discounts don't apply)

"We cannot become what we want by remaining what we are."

Third, because we are on such a busy street, we will be requiring everyone to create a 7 digit numeric key code to get in the front door.

Fourth, a new 'not-following-your-program' penalty will be instituted, requiring you to choose between washing our dishes or 20 push-ups in the lobby.

Fifth and final, there will be an upcharge for those that come to their appointment grumpy or otherwise out of sorts.....

And for anyone not already smiling at this.....

April Fool's!!!!

One more change at The Natural Path....Ruby has been trained to sniff out whether people have been taking their supplements or not. Just one more service we will be offering. :-)

Allergy and Sensitivity Support

In all seriousness, spring can be a tough time for allergy sufferers. The flowers and trees will be in full bloom soon, along with all the pollens and other allergens that accompany them this time of year. This is a good time to get your seasonal allergies under control.

One of the most helpful things we have found for environmental allergies is biofeedback technology. This is a computer-based device that we use to test your body's reaction to different substances and then balance the body to anything that causes an over-reaction. We are offering discounted scans all this month. It is better to address allergies before they are in full swing, so be sure to get your biofeedback scan soon.

Chronic Illness Resource & Resiliency Group

Do you struggle with a chronic illness? Do you suffer with ongoing pain, sleep issues, digestive trouble, brain fog, etc.?

What do all chronic illnesses have in common? THEY INTERFERE WITH YOUR QUALITY OF LIFE!

We have a new group for you! The Resource & Resiliency Group is a supportive group of peers sharing methods and know-how of what works for them. There will be no selling, no medical advice, and no pressure to talk, and the best part, NO COST!

The group will meet at StraightLine Fitness Studio (Prospect/Lemay) at 5:30 pm on the following Wednesdays: April 13th, May 11th and June 8th. A light dinner will be served. Please sign-up in advance at 970-817-3499.

None of these changes will actually be taking place, but we hope you enjoyed the joke! With all the negativity going on in the world, a light heart and a smile are very good medicine!

Since we all love a great joke at The Natural Path, anyone who brings in one good enough to make us laugh in April will receive \$5 off a supplement purchase (limit 1 per person). We will pick our favorite at the end of April and the winner will receive a \$20 supplement credit.
